Together in Motion

Engineering & Support

AT Packaging provide maintenance, repair and supply parts for machinery or equipment of any brand, model, age.

- 24/7 Technical Support
- Repair all tool brands
- Maintenance Program
- Tool Rental
- Virtual training, on site as well as in our premises

PET Strapping

In the **Wood and Lumber industry**, a great diversity of products such as particle boards and MDF-boards, sawn timber, laminates, and natural wood parquetry panels need to be strapped into packages in various and different ways. Vertical strapping requires high performance products in order to hold the package together.

Type	Dimensions	Use
TYCOON® HT	3/8" - 1"	Suitable for applications requiring High Tension and with increased risk of shock splitting
TYCOON® XTend	5/8" - 1 1/4"	Enhanced functionality and quality without compromising the safety and stability
TYCOON® HQI	3/8" - 1 1/4"	Ability to print black text or numbers on PET. TEUFELBERGER also offers AAR approved strapping (Association of American Railroads).

Battery & Pneumatic Hand Tools

↪ T-Shark

· **Strapping:** Polyester (PET)

· **Strap dimensions:**

T-Shark A: 5/8 - 3/4" X .028 - .050"

T-Shark B: 1 - 1 1/4" X .031 - .055"

· **Maximum tension:**

T-Shark A: 880 lbs

T-Shark B: 2000 lbs

· **Battery:**

T-Shark A: 18VDC / 4.0 Ah Li-Ion

T-Shark B: 36VDC / 2.0 Ah Li-Ion

· **Joint:** Friction weld

↪ ZP97A

· **Strapping:** Polyester (PET)

· **Strap dimensions:** 5/8 - 3/4" X .028 - .050"

· **Maximum tension:** 880lbs

· **Joint:** Friction weld

· **Battery:** 18 VDC / 4.0 Ah Li-Ion

↪ T-Shark HT 25-32

· **Strapping:** Polyester (PET)

· **Strap dimensions:**

3/4 - 1 1/4" X .035 - .050"

· **Max. strap tension:** 1,000lbs

· **Joint:** Friction weld

Strapping Machines

Suitable for a wide variety of Polyester or Polypropylene strapping, most of our equipment possesses all industry's standard features and several creative user friendly designs.

↪ TP702B

· **Strapping:** Polypropylene (PP)

· **Strap dimensions:** 5, 9, 12mm

· **Strap tension:** 1-99 lbs. (12mm)

· **Joint:** Heat seal

· **Options:**

- Siemens PLC control.

- Energy saving in transit mode with the automatic standby.

Automatic Strapping Systems

Our automatic strapping systems are designed specifically to meet the requirements of the lumber industry. Our strapping technology respects the specificities of all your packaged materials. Top and side compression mechanisms provide increased load stability when transporting by land or sea. All our strapping heads are equipped with integrated oiling and blowing devices for easy maintenance and operation. This strapping equipment can be inserted into any existing production line with remarkable simplicity. Our specialists are at your service to analyze and optimize your requests according to the requirements of your specifications.

Jumbo Hybride Dispenser

T-ROLL is the first jumbo reel available in Canada. It saves time when changing the coils of strapping by eliminating the individual manipulation of the latter. Easy to use, this revolutionary reel adapts to 4 different sizes of strapping reels that can reach up to 54,000 linear feet. Put an end to costly wasted strapping and damaged rolls when changing reels with the new T-ROLL.

We create Alternative Technology

Since 1986, AT Packaging has contributed to many cost savings in the Packaging Industry by offering alternative technologies which benefits to all its partners.

Always looking for technological inventions applicable in Today's Industry, AT Packaging has tremendous technical capabilities to realize all your packaging projects.
