SOUDEUSES EN L ESA SERIES

EASTEY's Professional Series ESA L-Sealers provide top of the line features and the most robust L-Sealer design on the market today. Expertly welded from ¼" cold rolled steel, Professional ESA L-Sealers will withstand even the most abusive real-world sealing applications. As a measure of strength, L-Sealers weigh nearly twice as much as competitive models.

L-Sealers are designed and built to give you all the performance features needed for positive sealing a wide variety of films including polyolefin, polyethylene, and PVC. Cast seal arms, pneumatic operation, stainless steel film clamps, and heavy-duty magnet clamping are just some of the features that provide the durability you have come to rely on from EASTEY.

FEATURES AND BENEFITS

- Designed to seal most polyolefin, polyethylene, and PVC* shrink film.
- Dual palm pneumatic seal head activation.
- Hot knife seal systems available with mushroom (standard), pancake, or arrow inserts.
- Dual locking magnet clamps apply even pressure across seal bar.
- Adjustable dwell time for better seal control.
- Takeaway conveyor can be raised or lowered to center-seal product
- Adjustable pin perforator provides air evacuation
