# T-ROLL

T-ROLL the first Hybrid jumbo dispenser

## Time saving

- Handles pallets instead of single coil
- Loading time of strapping is reduced
- Less downtimes

## Easy to use

- No Manhandling or lifting required
- Eliminates risk of back strain injuries
- Versatile positioning
- Can use 4 different Jumbo coil size (coil size up to 320kg)
- Low maintenance, Easy to lubricate

## Efficient

- Load more than 200,000' with one lift
- Saves costly downtime, runs 12 times longer
- Turntable rotating in both directions, avoiding roll change problems
- Adjustable turntable rotating speed
- Dispenser in two separate parts for installation in tight areas
- Requires less strapping coils storage space
- Heavy duty oversize ring gear drive
- No more waste or damaged coils from loading dispensers
